111		Conversion rate for estimated barrels is based on E.P.A. data dated September, 1985, table, right. (267) World War Two estimates were likely slightly different due to the calculation of octane ratings used.									
112											
113		The form 7802 is missing for the Paoli. Estimates are based on available data on hand.									
114											
115		Bills of lading, cargo manifests or reports are missing (or destroyed) for: Lejeune, Patroller, Excelsior and Santa Rosa.									
116											
117		Several of the commanders of the U.S. Naval Armed Guard reported the contents of the Deck Cargo for " technical devices " as being "gliders".
